Term

Description

Accounts payable	a record of all unpaid short-term (less than 12 months) invoices, bills and other liabilities. Examples of accounts payable include invoices for goods or services, bills for utilities and tax payments due.
Accounts receivable	a record of all short-term accounts (less than 12 months) from customers you sell to but are yet to pay. These customers are called debtors and are generally invoiced by a business.
Accrual accounting	an accounting system that records transactions at the time they occur, whether the payment occurs now or in the future.
Amortisation	the process of offsetting assets such as goodwill and intellectual property over a period of time.
Assets	things you own. These can be cash or something you can convert into cash such as property, vehicles, equipment and inventory.
Audit	a check by an auditor or tax official on your financial records to check that you account for everything correctly.
Bad debts	money that is unlikely to be paid in the near future.
Balloon payment	a final lump sum payment due on a loan agreement. Loans with a larger final 'balloon payment' have lower regular repayments over the term of the loan
